Written notice shall be mailed at least 3 days before the meeting to anyone who has filed a written request for notice of special meetings. In calculating the 3 days, if the last day falls on a Saturday, Sunday or legal holiday, the next regular business day shall be counted as the third day.

§ 30.20 CHANGES TO APPENDIX A: FEE SCHEDULE.

The City Council may from time to time, by Resolution, make changes to the amounts of the fines and fees established in "Appendix A: Fee Schedule" of this Code.

MISCELLANEOUS**§ 30.30 CITY EMPLOYEE PERSONNEL POLICIES.**

The City Administrator is authorized to establish polices within the context of state and federal law and upon the advice and consent of City Council. Such polices were established in 2005. An employee handbook was designed to answer questions pertaining to employment practices, responsibilities as an employee, and benefits received. The handbook is not a contract and does not constitute the terms of an employment contract. Information and provisions contained in the handbook may changed from time to time, upon consent of the City Council and notification of employees.

§ 30.31 CITY VEHICLES.*(A) Purpose.*

(1) This policy will provide uniform criteria for all city departments and operation in the acquisition and replacement of vehicles. The city is dedicated to managing its resources in a fiscally responsible manner. Therefore, a specific need should be demonstrated before a new vehicle is added to the city's equipment list, and every existing vehicle should be utilized to its greatest economic extent prior to replacement. The acquisition of additional vehicles to the city's overall operation and their replacement should be only as necessary to allow the city to provide the services and perform the duties and responsibilities which are expected by the public with budgetary constraints.

(2) The many varied aspects of public service provided by the city require the use of different types of vehicles. The type of vehicle acquired shall be that which is determined to be appropriate, cost effective, and in the best interest of the city for that vehicle's function. Vehicle acquisitions shall be justified in writing by the department head and approved by the City Administrator subject to budgetary constraints.

(B) Vehicle replacement policy.

(1) *Minimum replacement standards.* City acquired vehicles should not be programmed or budgeted for replacement until they meet minimum replacement standards for the particular vehicle category, but vehicles should not be replaced just because they meet the minimum replacement standards. Any deviations for early replacement must be justified in writing by the department head and approved by the City Administrator.

(2) Replacement evaluation process.

(a) Any vehicle which is proposed for replacement shall have a standard vehicle evaluation form completed with a written recommendation by the appropriate department head outlining the justification for its replacement.

(b) When applicable, the department head will establish the replacement year when the replacement schedule is based on usage, and also determine all other miscellaneous equipment replacement schedules based on usage, manufacturer's recommendations, and condition of equipment.

(c) Replacement exceptions may be made based on mechanical reliability, financial considerations, safety, and vehicle availability as recommended by the department head and approved by the City Administrator.

(d) All vehicle purchases, replacements, and reassignments must be coordinated between the department head and City Administrator. Next, the City Administrator will update and distribute all additions and revisions to the 5-year replacement schedule to the Council at the beginning of the capitol improvements planning process and after the final budget is approved.

Olivia - Administration

(3) *Disposition of used vehicles.* Before a vehicle is removed from the city's equipment list, the department head and City Administrator shall review all current vehicles of similar type and determine if it would be economically beneficial to switch with another existing vehicle before disposal. They will also determine the most economical method and time of disposal. Vehicles scheduled to be replaced may be retained by the city, for use in another capacity (e.g., replaced squad car being used as an administration vehicle) upon approval of the City Administrator.

(C) *City use of personal vehicles; mileage, reimbursement.*

(1) All employees of the city will be paid mileage for use of their personal vehicles and reimbursed for all related legal parking costs while conducting official city business. The mileage rate will be as set by the City Council. Employees are encouraged to use available city vehicles whenever possible while conducting official city business.

(2) Normal personal commuting mileage from home to work or work to home is not reimbursable.

(D) *Vehicle identification; city logo.* All city vehicles shall be licensed and marked in accordance with state law and as appropriate for vehicle's specific use as follows:

(1) All administrative transportation vehicles shall have the city's name and vehicle number prominently displayed on side door panels. The city's official logo will be applied when it is beneficial to have it displayed to the public as determined by the department head.

(2) All Public Works and Park Maintenance specialty type vehicles shall have the city name, logo, and vehicle number prominently displayed on the side door panel or other highly visible location.

(3) Marked police squad/patrol cars shall be marked as dictated by state law.

(4) Fire Department vehicles shall display the city's name, vehicle number and shall contain lettering identifying it as a fire response emergency vehicle prominently displayed on the side door panels or other highly visible location.

(E) *Responsibility.* The City Administrator is responsible for the enforcement of this policy. Department heads may not deviate from the policy unless they have written approval from the City Administrator.
